

11 June 2019

**POMSOX Announcement**  
**POMSoX Market Incident Reporting 11 June 2019**

This is to inform you that Port Moresby Stock Exchange Limited encountered connectivity issues in relation to the trading system this morning. As a consequence the market was temporarily not available for trading at the normal appointed time today (9.00 am). A solution was achieved a short while ago, and market access for participants was restored at approximately 10.40 am today.

Our ICT service providers and Trading System support will continue to perform standard root cause analysis to identify areas for improvement to further minimise the risk of this occurring in future.

For queries regarding this release you are advised to contact the POMSoX Office on telephone (+675) 320 7939
