Announcement |(PNGX)| Kokopo, Friday 13th September 2024

NGP ANNOUNCEMENT

Financial Results to June 30, 2024

NGP announce financial results for the first half of the year ending June 30, 2024 and advise shareholders that their company has enjoyed significant growth in both revenue and profit during the reporting period.

Key Financial Highlights:

- **Revenue** has increased 142% against the same prior year period.
- **Cost of Sales** increased by 191% year on year, due mainly to the much higher cocoa prices paid to Cocoa farmers but also reflecting increased costs of getting exports to market.
- **Gross Margin** is down by 13% in kina terms but increased in per tonne terms as we respond to the market by increasing prices paid to our growers.
- **Overhead Costs** have risen by 9% due to supplier price increases. We assess this as reflecting underlying inflation pressure on PNG economy
- **Finance Costs**, have grown by 59%, reflecting increased borrowing to support cocoa buying and providing income to cocoa farmers.
- **Profit After Tax** is up by 367% on last year.
- **Inputs to local economies.** Cocoa farmer direct payments across ARoB, NGI and Momase increased from K43m Jan – Jun 2023 to K161m Jan-Jun 2024

	Jan-Jun 2024	Jan-Jun 2023	Change	% Change
Revenue (Operating)	188.6M	77.9M	110.7	142%
Gross Margin	20%	34%	(-13%)	-
Profit / (Loss) after Tax	8.8M	1.8M	6.9M	367%
Share Price	0.7500t	0.6900t	-	-
Dividend per Share	0.0400t	0.0300t	0.0100t	33%

Cocoa Market Impact:
Improved financial performance was primarily driven by the Cocoa Division, reflecting the significant increase in world cocoa market prices. Key details include:

- Cocoa prices reached a 47-year peak in April 2024 before settling at current level (still well over double of the 2023 average).
- This surge was mainly due to a sharp decline in West Africa's cocoa crop, attributed to crop disease and climate events. West Africa typically accounts for up to 40% of the world's cocoa supply.
- Industry analysts suggest cocoa prices will remain buoyant for 12-18 months, dependent upon West Africa's crop recovery strategies.

- 2024 cocoa harvest flush started in April and continued to July 2024. Last year cocoa flush started in May 2023 and ended June. The sustained 2024 flush may indicate a higher PNG total 2024 harvest.

The flow of cash into local economies from cocoa purchasing has benefitted other (non-cocoa) activities within NGIP Agmark Ltd as sales growth in our Agmark Didiman Stoa network. We see this as cocoa farmers buying agriculture supplies to reinvest their cocoa funds into their farms. There has also been increased revenue for our Transport, Logistics and Shipping divisions which we attribute to increased retail and wholesale activities in our locales.

Costs and Challenges:

- To June 30th 2024, we saw operating costs 9% up on last year. Increased costs are cited by our suppliers as cause for increase in their charges. Generator fuel costs at all locations have risen sharply as PNG Power Limited reduce the hours of electricity supply.
- The removal of cheques from the PNG bank system has been a huge challenge. The majority of our cocoa farmers prefer cash. Mostly this is due to lack of access to ATM's or Eftpos machines to purchase goods and services in rural and remote locations. Agmark staff at all of our branches have worked tirelessly helping farmers to open bank accounts and to transition mindsets to accept the modern reality of getting paid directly into bank accounts.
- We paid 59% more in increased finance and borrowing costs. We purchase cocoa using short term borrowed funds so the higher cocoa price dictates that the volume of our borrowings increase.
- The processing and production of wet bean cocoa at Kokopo has been hindered by the fire at Talina #1 Fermentry a year ago. Insurance settlement has been received paid and a more energy efficient design is being developed for a new fermentry.
- Further growth depends on increased farmer production. We need to see greater acreage under Cocoa and greatly improved input from Government at all levels to promote, encourage and extend the Cocoa industry. It is not reasonable to hope for any further continued growth in world prices but it makes great sense to capitalise on current opportunities before they are lost.
- We understand that the dividend is 33% up on last year and does not reflect the increase in the profit. However Management is cautious of the cash flow commitments towards paying company taxes (currently K3.7M), rebuilding of Fermentary, investing in new capital for sustainable profits and the ability to continue to buy cocoa at high prices at the backend of the year.

Conclusion:

The excellent 2024 half year profit of K8.8million after tax reflects strategic and fluent management decisions to capitalise on the market opportunities created by a largely unpredicted shift in world Cocoa price. The company continues to scrutinise costs, to seek improved return on investment, to create strong relationships with suppliers and to focus on efficient and valued customer service.

For on and behalf of the NGIP Agmark Limited Board.

Nicholas Lyons
Chairman

Rules 4.1, 4.3

Comments by directors

Basis of accounts preparation

If this report is a half yearly report, it is a general purpose financial report prepared in accordance with the listing rules and AASB 1029: Half-Year Accounts and Consolidated Accounts. It should be read in conjunction with the last +annual report and any announcements to the market made by the entity during the period. [Delete if preliminary final statement.]

Material factors affecting the revenues and expenses of the economic entity for the current period

A description of each event since the end of the current period which has had a material effect and is not related to matters already reported, with financial effect quantified (if possible)

Changes in accounting policies since the last +annual report are disclosed as follows.

(Disclose changes in the half yearly report in accordance with paragraph 15(c) of AASB 1029: Half-Year Accounts and Consolidated Accounts. Disclose changes in the preliminary final report in accordance with AASB 1001: Accounting Policies-Disclosure.)

Additional disclosure for trusts

20.1	Number of +units held by the management company or a +relate	**NA**
20.2	A statement of the fees and commissions payable to the manage * Identify: * initial service charges * management fees * other fees	**NA**

Annual meeting

(Preliminary final report only)

The annual meeting will be held as follows:

Place	
Date	
Time	
Approximate date the +annual report will be available	

Compliance statement

21.1 This report has been prepared under accounting policies which comply with accounting standards approved by the Accounting Standards Board pursuant to the Companies Act 1997 or other standards acceptable to PNGX (see note 12).

21.2 Identify other standards used: **International Financial Reporting Standards**

21.3 This report, and the financial statements prepared under the Companies Act 1997 (if separate), use the same accounting policies.

21.4 This report does/~~does not*~~ *(delete one)* give a true and fair view of the matters disclosed (see note 2).

21.5 This report is based on financial statements to which one of the following applies. (Tick one)

	The financial statements have been audited.		The financial statements have been subject to review.
X	The financial statements are in the process of being audited or subject to review.		The financial statements have *not* yet been audited or reviewed.

21.6 If the audit report or review by the auditor is not attached, details of any qualifications are attached/will follow immediately they are available* *(delete one)* .

21.7 The entity has/~~does not have*~~ *(delete one)* a formally constituted audit committee.

Notes

1 For announcement to the market The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with

2 True and fair view If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must

Consolidated profit and loss account

Item 1.1 The definition of "operating revenue" and an explanation of "sales revenue" (or its equivalent) and "other revenue" are set out

Item 1.4 "+operating profit (loss) before abnormal items and tax" is calculated before dealing with outside +equity interests and extraordinary items, but after deducting interest on borrowings, depreciation and amortisation.

3 Item 1.7 This item refers to the total tax attributable to the amount shown in item 1.6. Tax includes income tax but excludes taxes treated as operating expenses.

4 Income tax If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.

Consolidated balance sheet

(a) **Format**

The format of the consolidated balance sheet should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029 and AASB 1034* .

(b) **Basis of revaluation**

If there has been a material revaluation of non-current assets (including investments) since the last +annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of paragraphs 9.1-9.4 of *AASB 1010: Accounting for the Revaluation of Non-Current Assets* . If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required. Trusts should also note paragraph 10 of *AASB 1029* and paragraph 11 of *AASB 1030* .

5 Statement of cash flows For definitions of "cash" and other terms used in this report see *AASB 1026: Statement of Cash Flows* . Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate.

6 However, the presentation adopted must meet the requirements of *AASB 1026* . +Mining exploration entities may use the form of cash flow statement in Appendix 5B.

7 Net tangible asset backing Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the +ordinary securities (ie, all liabilities, preference shares, outside +equity interests etc). +Mining entities are *not* required to state a +net tangible asset backing per +ordinary

8 **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the entity's consolidated +operating profit (loss) and extraordinary items after tax by more than 5% compared to the previous corresponding period.

9 Rounding of figures This report anticipates that the information required is given to the nearest K1,000. However, an entity may report exact figures, if the K'000 headings are amended.

10 Comparative figures Comparative figures are the unadjusted figures from the previous corresponding period. However, if there is a lack of comparability, a note explaining the position should be attached.

11 Additional information An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the +Registrar under the Companies Act 1997 must also be given to PNGX. For example, a directors' report and statement, if lodged with the +Registrar, must be given to PNGX.

12 Accounting Standards PNGX may for foreign entities accept, for example, the use of accounting standards not approved under the Companies Act 1997 if the entity is not subject to, or is exempted from, the requirements of Section 390 of the Companies Act 1997.
