Announcement |(PNGX)| Kokopo, Monday 16th March 2026

NGP ANNOUNCEMENT

Financial Results for 2025 Financial Year

NGP announce financial results for the 2025 Financial year and advise shareholders their company has enjoyed significant growth in both revenue and profit during the reporting period.

	Jan-Dec 2025	Jan-Dec 2024	Change	% Change
Revenue (Operating)	621M	441M	179M	46%
Gross Margin	21.3%	23%		(1.7%)
Profit / (Loss) after Tax	42M	30.9M	11.1	36%
Share Price	1.350t	0.800t	0.55t	69%

- **Revenue** has increased 46% largely due to high cocoa market price and tonnages.
- **Cost of Sales** increased by 42% because of high cocoa market price.
- **Gross Margin** is consistent with 2024 as cocoa market similar year on year.
- **Overhead Costs** have risen by 12% due to supplier's surge in operating costs. As well as the company's investment to support the cocoa farmer and industry.
- **Finance Costs**, have grown by 35%, representing increased borrowing to support cocoa buying and providing income to cocoa farmers.
- **Profit After Tax** is up by 36% on last year.
- **Inputs to local economies.** Cocoa farmer direct payments across AROB, NGI, Momase & Oro increased from K318.6m in 2024 to K362.5m in 2025

Key Drivers of Performance

Cocoa Market Conditions

The Group's strong performance during the year was largely driven by exceptional conditions in the global cocoa market. In September 2024, industry reports confirmed that declining cocoa production in West Africa, largely due to crop disease and adverse climatic conditions, had significantly reduced global supply. This led to a sharp increase in demand for Papua New Guinea cocoa and resulted in cocoa prices rising to levels well above historical averages.

These favourable market conditions continued through much of 2025. Combined with increased export volumes, NGIP Agmark's revenue surpassed the record performance achieved in 2024. However, towards the end of the year, cocoa prices began to decline as reports emerged of improving crop conditions and recovery initiatives in West Africa, with international commodity markets responding to the anticipated increase in supply.

In addition to the Cocoa Division, other key contributors to the Group's performance included **Didiman Stores, Rabtrans Transport, Shipping, Machinery, Rabweld, and Niugini Coffee Tea & Spice Company (Agmark Coffee)**. These divisions delivered strong operational results and contributed significantly to the Group's overall profitability. The performance of these businesses highlights the strength and resilience of the Group's diversified operating model.

Cost Pressures and Operational Challenges

While the Group delivered strong financial results, 2025 was not without its challenges. Operating costs increased by approximately **12% compared with 2024**, reflecting rising fuel prices, higher maintenance costs, increased security expenses, and general supplier cost increases across the supply chain.

The removal of cheque payments in mid-2024 also presented operational challenges. Many cocoa farmers continue to rely on cash transactions due to the nature of rural economies. While most farmers have transitioned to electronic banking, several branches continue to purchase cocoa using cash to support farmers who have not yet adopted digital payment methods.

The Group also experienced a **35% increase in finance and borrowing costs**. As cocoa purchases are funded largely through short-term borrowings, the sharp rise in cocoa prices resulted in higher working capital requirements during the year.

Outlook

Global cocoa prices may moderate as production levels recover in West Africa.

Looking ahead, the long-term growth of the cocoa industry will depend on increased farmer production. Expanding cocoa plantings and continued government support will be critical to sustaining the industry. While global prices may normalise as West African production recovers, the current environment provides an important opportunity to encourage greater investment in cocoa production across Papua New Guinea.

Closing Remarks

NGIP Agmark delivered a strong result in **FY2025**, recording a **profit after tax of K43 million**. These results reflect the Group's ability to respond to favourable market conditions while maintaining disciplined operational and financial management.

The Board remains focused on managing rising costs, strengthening relationships with farmers and stakeholders, and positioning the Group for sustainable long-term growth.

Audit Status

These financial results are preliminary and remain subject to final audit review.

The Company expects to release its audited financial statements and Annual Report in accordance with PNGX reporting requirements.

KEY INFORMATION

• Revenue for 2025 was K621 million, an increase of K180 million or 41% compared with 2024 revenue of K441 million. The increase was mainly due to continued high cocoa prices, which began rising in early 2024 and remained elevated for most of 2025. In addition, NGIP Agmark exported higher cocoa volumes than in 2024. Prices remained high because of the reduced cocoa supply from West Africa, with international commodity market conditions driving pricing levels.
• Cost of sales increased by K139 million, or 40%, compared with 2024. This was in line with the increase in cocoa prices. Additional cost increases were also experienced in fuel, shipping and cartage rates, port fees, and supplier administration costs.
• Overhead costs increased by K18 million, or 20%, over the prior year. The main driver was financing costs incurred to support cocoa farmers and the cocoa industry. In addition, the Company continued to invest in property, plant and equipment to maintain ongoing services, improve efficiency, and identify cost-saving opportunities.
• A profit after tax of K43 million was achieved in 2025, which was K13 million, or 40%, higher than the 2024 profit after tax of K30 million. This improvement was driven by the high cocoa prices and increased tonnages recorded in 2025.
• A dividend of K0.04 per share was paid to shareholders in November, amounting to K1.8 million, including withholding tax.

RESULTS OF THE PERIOD

The Group's performance at year end exceeded expectations, largely driven by the outstanding performance of the Cocoa Division, supported by historically high market prices. In addition, cocoa production levels in 2025 were higher than in 2024. This improvement is believed to be largely due to favourable weather conditions. The industry had previously faced challenging periods of damaging wet weather and prolonged drought during 2022 and 2023, which significantly reduced cocoa production, with recovery only beginning in 2024.

With both cocoa production and market prices increasing during the year, cocoa farmers experienced a particularly strong income period. Their continued hard work and commitment to maintaining their cocoa blocks has been rewarded by these favourable market conditions. At the same time last year, we anticipated that cocoa prices would remain elevated for a further 12–18 months until cocoa production in West Africa recovered. However, by December 2025, market prices had begun to decline significantly towards pre-2024 levels. This was largely driven by reports of improving production prospects in West Africa, with international commodity markets reacting to this anticipated increase in supply.

Our other divisions, which operate in close synergy with the cocoa industry, also delivered strong results during 2025. Despite ongoing challenges including shipping delays, manufacturing deferrals, security concerns and increased competition, the Agmark Coffee, Agriculture Supplies, Machinery, and Rabtrans divisions were able to deliver positive outcomes and achieve their budget targets.

Senior Management remained committed throughout the year, and their ability to navigate these challenges reflects a strong understanding of both internal capabilities and external market conditions. Their strategies will be particularly important in 2026 as the Group continues to manage increasing cost pressures while maintaining operational performance.

Notes

1 For announcement to the market The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with thos

2 True and fair view If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must att

Consolidated profit and loss account

Item 1.1 The definition of "operating revenue" and an explanation of "sales revenue" (or its equivalent) and "other revenue" are set out in

Item 1.4 "+operating profit (loss) before abnormal items and tax" is calculated before dealing with outside +equity interests and extraordinary items, but after deducting interest on borrowings, depreciation and amortisation.

3 Item 1.7 This item refers to the total tax attributable to the amount shown in item 1.6. Tax includes income tax but excludes taxes treated as operating expenses.

4 Income tax If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts.

Consolidated balance sheet

(a) **Format**

The format of the consolidated balance sheet should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029 and AASB 1034* .

(b) **Basis of revaluation**

If there has been a material revaluation of non-current assets (including investments) since the last +annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of paragraphs 9.1-9.4 of *AASB 1010: Accounting for the Revaluation of Non-Current Assets* . If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required. Trusts should also note paragraph 10 of *AASB 1029* and paragraph 11 of *AASB 1030* .

5

6 Statement of cash flows For definitions of "cash" and other terms used in this report see *AASB 1026: Statement of Cash Flows* . Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the presentation adopted must meet the requirements of *AASB 1026* . +Mining exploration entities may use the form of cash flow statement in Appendix 5B.

7 Net tangible asset backing Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the +ordinary securities (ie, all liabilities, preference shares, outside +equity interests etc). +Mining entities are *not* required to state a +net tangible asset backing per +ordinary security.

8 **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the consolidated financial statements. Details must include the contribution for each gain or loss that increased or decreased the entity's consolidated +operating profit (loss) and extraordinary items after tax by more than 5% compared to the previous corresponding period.

9 Rounding of figures This report anticipates that the information required is given to the nearest K1,000. However, an entity may report exact figures, if the K'000 headings are amended.

10 Comparative figures Comparative figures are the unadjusted figures from the previous corresponding period. However, if there is a lack of comparability, a note explaining the position should be attached.

11 Additional information An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the +Registrar under the Companies Act 1997 must also be given to PNGX. For example, a directors' report and statement, if lodged with the +Registrar, must be given to PNGX.

12 Accounting Standards PNGX may for foreign entities accept, for example, the use of accounting standards not approved under the Companies Act 1997 if the entity is not subject to, or is exempted from, the requirements of Section 390 of the Companies Act 1997.
